## Experience

### Senior Software Engineer

Resolve.ai (A subsidiary of Actionable Science Labs Pvt Ltd) • Chennai, Tamil Nadu

11/2021 - 08/2023

- Developed front-end solutions using React.js and back-end services with Node.js and MySQL following MVC architecture.
- Worked on the development of chatbot flow-builder that used YAML to design flows that was later transformed into a standalone UI-based flow builder that formatted data into suitable formats in the back-end.
- Assisted in the integration of chatbot flows with Teams and Slack, leveraging platform documentation to automate flow building and demonstrated strong back-end development skills by ensuring functionality and automation within both platforms.
- Collaborated with product managers to define and document software requirements and project scopes, achieving a high level of client satisfaction with a 90% approval rate on project proposals.
- Provided critical input on UI/UX designs and contributed to company's SEO strategy leading to increase in website traffic establishing an online presence.
- Led client meetings to gather detailed requirements, system needs and proposed customized solutions.
- Employed critical thinking for technical issues, making informed decisions that increased system performance ensuring 100% on-time project delivery.
- Designed and implemented a robust API hub that elevated client-specific API integration efficiency, enhancing system flexibility and scalability.
- Mentored junior developers contributing to their skill development along with achieving improvement in team output

### Front End Developer

Web Cannon-Z • Bangalore, Karnataka

05/2021 - 11/2021

- Developed front-end of client-requested e-commerce websites using React.js, implementing CRUD operations and hosting prototypes for client's review and initial use.
- Demonstrated strong adaptability by learning new tools and UI development frameworks and implementing them on the front-end side.
- Followed reusable code strategies, optimizing website performance and improving development efficiency.
- Collaborated with web designers to enhance UI/UX, improving the overall usability and customer satisfaction.

- Maintained and modified client websites, implementing updates to meet evolving business requirements, which increased site stability and performance.

## Front End Developer Intern

Web Cannon-Z • Bangalore, Karnataka

11/2020 - 04/2021

- Built responsive front-end websites using HTML, CSS, and JavaScript to meet client requirements, ensuring appealing and functional designs.
- Gained proficiency in DOM manipulation to make websites interactive and enhance user experiences, improving site engagement and functionality.
- Learnt and applied SEO techniques to optimize website visibility, leading to improved Google rankings and user engagement.
- Conducted regular code refactoring and Employed version control systems (Git/GitHub) to track changes and manage codebase versions efficiently.
